PROFILE

Daniel, holds a Bachelor's in Industrial Physics (2"1) and has carved a niche for himself in information technology as a Front-End Developer with an ability to work with senior developers and also spending time practicing and being mentored. Working with team members to ensure workloads effectively carryout, for maximum output. With a passion for both personal growth and for software development, having attended hours of coding bootcamp to learn new languages while sharpening existing skills. Ready to work in an organization where my coding skills will be challenged and enhanced to the benefit of a talented team or company.
